

Please accept my gift in honour of:

Your donation could bring hope to so many

The Garvan Institute of Medical Research is recognised as a world leader in fundamental biomedical and genomic research. Our goal is to translate discovery into meaningful health benefits for those living with disease and their family. Patients, clinical trial cohorts and population cohorts are at the centre of Garvan's research. We are focused on addressing the unmet needs of those living with disease – where better understanding, new treatments and more effective diagnosis can have the biggest impact.

Your donation to Garvan today will enable us to continue our work for the benefit of generations to come, and help give hope to sufferers and their families around Australia and throughout the world. Thank you sincerely for your generosity and support.

Our research depends on people like you

The Garvan Institute of Medical Research has achieved a remarkable history of breakthroughs. However, breakthrough medical research requires a substantial investment in time, technology and scientific know-how, as well as an ability to attract the finest minds. That's why the financial support provided by Government, the corporate sector, and – just as importantly – private individuals, is so vital. Even more so because for every \$1 we receive in government research grant funding, we must raise another 70 cents to be able to carry out our work.

With your support, more discoveries that will improve human health and reduce suffering are within reach.

Thank you.

For information about Garvan's work, you are invited to call 1300 73 66 77, or visit garvan.org.au

**Professor Chris Goodnow FAA FRS
Executive Director**
"We depend upon financial support from the Australian community. Every donation, whatever the size, makes an important contribution to our breakthrough medical research."

The Garvan Institute of Medical Research brings together word leading clinicians and basic and translational researchers. We are patient focused. Our researchers break down the barriers between traditional scientific disciplines to find solutions to disease. Our mission is to harness all the information encoded in our genome to better diagnose, treat, predict and prevent disease. Garvan's research has global impact. Our scientists pioneer discoveries across four intersecting research themes. We lead the field in medical genomics, epigenetics, and cellular genomics; cancer, diseases.

About Garvan

My name

Mr Mrs Ms Miss Dr
 Other: _____
 First name: _____
 Surname: _____
 Address: _____
 Suburb: _____
 State: _____ Postcode: _____
 Phone (daytime): _____
 Email: _____

My donation

Please accept my donation of \$ _____
 Cheque (Please make payable to Garvan Research Foundation)
 Visa MasterCard AMEX Diners Club
 Cash
 Card Number:
 Expiry Date: /
 Cardholder's Name _____
 Signature: _____ Date: _____
 All donations \$2.00 and over are fully tax deductible.
